

## Brush Bunny Project

Dear Parent,

On behalf of Early Childhood Ireland and the Irish Dental Hygienist Association, we would like to thank you for agreeing to allow your child to take part in a new pilot programme that helps encourage healthy tooth-brushing routines with children in early childhood settings.

This programme will be implemented with a fully qualified dental hygienist arranging 2 visits with your setting, sharing information on good practice with educators and children. It also includes fun and useful resources to help encourage children to involve healthy teeth practices in their daily routine.

If you need more information, please contact your child's early learning and care setting.

Kind Regards,

Early Childhood Ireland & the Irish Dental Hygienist Association.
